TABLE OF CONTENTS

VOLUME 54, July–December 1966

ABRAHAMSON, S., HELEN UNGER MEYER, E. HIMOE, and G. DANIEL, Further evidence demonstrating germinal selection in early premeiotic germ cells of Drosophila males (with Appendix: An approximate confidence interval for the ratio of two corrected rates, by ETAN MARKOWITZ) 687–697

Abstracts of papers presented at the 1966 meetings of the Genetics Society of America 315–370

ALLEN, ARCHIE C., The effects of recombination on quasinormal second and third chromosomes of *Drosophila melanogaster* from a natural population 1409–1422

ANDRESEN, E., Linkage between the *K* blood-group locus and the *Hp* locus for hematin-binding globulins in pigs 805–812

BARTLETT, ALAN C., A. E. BELL, and V. L. ANDERSON, Changes in quantitative traits of Tribolium under irradiation and selection 699–713

BEERMANN, SIGRID, A quantitative study of chromatin diminution in embryonic mitoses of *Cyclops furcifer* 567–576

BLEYMAN, LEA K., ELLEN M. SIMON, and RUTH BROSI, Sequential nuclear differentiation in Tetrahymena 277–291

BRAY, R. A., and R. A. BRINK, Mutation and paramutation at the *R* locus in maize 137–149

BROWN, DOUGLAS F., Paramutability of R^g and r^r mutant genes derived from an R^r allele in maize 899–910

CAVALLI-SFORZA, L. L., M. KIMURA, and I. BARRAI, The probability of consanguineous marriages 37–60

CHAI, C. K., Characteristics in inbred mouse populations plateaued by directional selection 743–753

CHEREST, HELENE, ET HUGETTE DE ROBICHON-SZULMAJSTER, Résistance a l'éthionine chez *Saccharomyces cerevisiae*. I. Etude génétique 981–991

CONNER, GEORGE W., Preferential segregation in Mormoniella 1041–1048

COPELAND, JAMES C., and VERNON BRYSON, Restriction in matings of *Escherichia coli* strain K-12 with strain B 441–452

COURTRIGHT, JAMES B., RICHARD B. IMBERSKI, and HEINRICH URSPRUNG, The genetic control of alcohol dehydrogenase and octanol dehydrogenase isozymes in Drosophila 1251–1260

CRESS, C. E., A comparison of recurrent selection systems 1371–1379

CRUMPACKER, D. W., Allelism and overdominance of chlorophyll genes in maize 1307–1314

DE ROBICHON-SZULMAJSTER, HUGETTE, ET HELENE CHEREST, Résistance a l'éthionine chez *Saccharomyces cerevisiae*. II. Etude physiologique 993–1006

DEMEREC, M., E. A. ADELBERG, A. J. CLARK, and PHILIP E. HARTMAN, A proposal for a uniform nomenclature in bacterial genetics 61–76

DOUGLAS, H. C., and D. C. HAWTHORNE, Regulation of genes controlling synthesis of the galactose pathway enzymes in yeast 911–916

DRISCOLL, C. J., Gene-centromere distances in wheat by aneuploid F_2 observations 131–135

EDWARDS, A. W. F., Linkage on a circular map 1185–1187

EHLING, U. H., Dominant mutations affecting the skeleton in offspring of X-irradiated male mice 1381–1389

EISEN, E. J., and J. E. LEGATES, Genotype-sex interaction and the genetic correlation between the sexes for body weight in *Mus musculus* 611–623

ELSTON, R. C., On testing whether one locus can account for the genetic difference in susceptibility between two homozygous lines 89–94

ENDO, TORU, and DREW SCHWARTZ, Tissue specific variations in the urea sensitivity of the *E*, esterase in maize 233–239

ENDRIZZI, J. E., and R. J. KOHEL, Use of telosomes in mapping three chromosomes in cotton 535–550

ENFIELD, F. D., R. E. COMSTOCK, and O. BRASKERUD, Selection for pupa weight in *Tribolium castaneum*. I. Parameters in base populations 523–533

ENOMOTO, MASATOSHI, Genetic studies of paralyzed mutants in Salmonella. I. Genetic fine structure of the *mot* loci in *Salmonella typhimurium* 715–726

ENOMOTO, MASATOSHI, Genetic studies of paralyzed mutants in Salmonella. II Mapping of three *mot* loci by linkage analysis 1069–1076

EPHRUSSI, BORIS, HEDWIG JACOB, et SIMONE GRANDCHAMP, Études sur la suppressivité des mutants à déficience respiratoire de la levure. II. Étapes de la mutation grande en petite provoquée par le facteur suppressif 1–29

CONTENTS

EPHRUSSI-TAYLOR, HARRIETT, Genetic recombination in DNA-induced transformation of pneumococcus. IV. The pattern of transmission and phenotypic expression of high and low-efficiency donor sites in the *amiA* locus 211–222

EPLER, J. L., Ethyl methanesulfonate-induced lethals in Drosophila—frequency-dose relations and multiple mosaicism 31–36

FAHMY, O. G., and MYRTLE J. FAHMY, The nature and distribution of the mutations induced by unirradiated and irradiated heterologous deoxyribonucleic acid in *Drosophila melanogaster* 1123–1138

FOREMAN, CHARLES W., Inheritance of multiple hemoglobins in Peromyscus 1007–1012

FRAHM, RICHARD R., and KEN-ICHI KOJIMA, Comparison of selection responses on body weight under divergent larval density conditions in *Drosophila pseudoobscura* 625–637

FREESE, ELIZABETH BAUTZ, and ERNST FREESE, Induction of pure mutant clones by repair of inactivating DNA alterations in phage T4 1055–1067

GLATZER, L., D. A. LABRIE, and F. B. ARMSTRONG, Transduction of *Salmonella typhimurium-Salmonella montevideo hybrids* 423–432

GRANT, VERNE, Linkage between viability and fertility in a species cross in Gilia 867–880

GRANT, VERNE, The origin of a new species of Gilia in a hybridization experiment 1189–1199

GREEN, M. M., Polarized pairing and recombination in tandem duplications of the white gene in *Drosophila melanogaster* 881–885

GRELL, RHODA F., The meiotic origin of temperature-induced crossovers in *Drosophila melanogaster* females 411–421

GRIFFITHS, A. J. F., and S. F. H. THRELKELD, Internuclear effects on prototroph frequencies of some crosses in *Neurospora crassa* 77–87

GRUNDER, ALLAN A., Inheritance of a heme-binding protein in rabbits 1085–1093

HANSCHE, P. E., S. K. JAIN, and R. W. ALLARD, The effect of epistasis and gametic unbalance on genetic load 1027–1040

HIGHTON, RICHARD, The effect of mating frequency on phenotypic ratios in sibships when only one parent is known 1019–1025

HOPWOOD, D. A., Nonrandom location of temperature-sensitive mutants on the linkage map of *Streptomyces coelicolor* 1169–1176

HOPWOOD, D. A., Lack of constant genome ends in *Streptomyces coelicolor* 1177–1184

HOWE, H. BRANCH, JR., and PHILIP HAYSMAN, Linkage group establishment in *Neurospora tetrasperma* by interspecific hybridization with *N. crassa* 293–302

HUBBY, J. L., and R. C. LEWONTIN, A molecular approach to the study of genic heterozygosity in natural populations. I. The number of alleles at different loci in *Drosophila pseudoobscura* 577–594

HULL, PETER, Possible stability of polymorphism in a multiallele incompatibility system in the mouse 1049–1053

JAIN, M. L., Biochemical definition of yellow-virescent and light-green suppressor mutations in barley 813–818

JAIN, S. K., and C. A. SUNESON, Increased recombination and selection in barley populations carrying a male sterility factor. I. Quantitative variability 1215–1224

KAO, FA-TEN, and RICHARD S. CALDECOTT, Genetic effects of recurrent irradiation in diploid and polyploid Triticum species 845–858

KERR, WARWICK ESTEVAN, and ROSS A. NIELSEN, Evidences that genetically determined Melipona queens can become workers 859–866

KESTER, DALE E., and R. ALEXANDER BRINK, Variation in paramutability of R^r in maize following extraction of the allele from a linked reciprocal translocation 1401–1407

KIEFER, BARRY I., Ultrastructural abnormalities in developing sperm of X/0 *Drosophila melanogaster* 1441–1452

KIMURA, MOTOO, and TAKEO MARUYAMA, The mutational load with epistatic gene interactions in fitness 1337–1351

KOMMA, DONALD J., Effect of sex transformation genes on glucose-6-phosphate dehydrogenase activity in *Drosophila melanogaster* 497–503

LEVINGS, C. S., III, and D. E. ALEXANDER, Double reduction in autotetraploid maize 1297–1305

LEWONTIN, R. C., and J. L. HUBBY, A molecular approach to the study of genic heterozygosity in natural populations. II. Amount of variation and degree of heterozygosity in natural populations of *Drosophila pseudoobscura* 595–609

LIEB, MARGARET, Studies of heat-inducible λ phage. III. Mutations in cistron *N* affecting heat induction 835–844

LUCCHESI, JOHN C., The effect of heterozygous autosomal inversions on induced exchanges between the attached-X and Y chromosomes in *Drosophila melanogaster* females 1013–1018

MALICK, LINDA E., and J. F. KIDWELL, The effect of mating status, sex and genotype on longevity in *Drosophila melanogaster* 203–209

MCDOUGALL, K. J., and T. H. PITTENGER, A cytoplasmic variant of *Neurospora crassa* 551–565
